

I-Talent-Gagnon & Partners are experts in the researching and recruitment of Executives, Managers and Technical Specialists.

We are recruiting for the global packaging system development activities of our client, an international pharmaceutical company, a:

Packaging Systems Senior Project Manager (M/F)

Main responsibilities

- Management of projects/assignments related to development of new pharmaceutical packaging systems (for parenteral & enteral applications) according to the company global strategy;
- Development of new medical & pharmaceuticals packaging systems according to company Center of Excellence's (coE) Pharmaceuticals development process flow, GxP's, international standards, pharmacopoeias,...
- Contribute to re-new and extend existing product portfolio and empower the transfer from innovation to production;
- Packaging systems materials & process development according to CoE's Pharmaceuticals Packaging System Management strategy;
- Benchmark of technological packaging systems manufacturing processes and materials for pharmaceutical applications.

Your qualifications

- MSc Engineer (Technical engineering) or equivalent;
- 5 years successful experience in development and industrialization of finished goods (food / medical / pharmaceuticals);
- Proven experience in plastic packaging;
- Expertise in project management (International Project Management Certificate is an asset);
- Fluent in English, good knowledge of French is also required, German is an asset.

You are strongly driven by the will of finding solutions to arising problems. Meanwhile, you are accurate, rigorous and show good resistance to stressful situations. You will need technical versatility to achieve your goals. Open-minded, attentive to your interlocutors while being able to assure your function, you find the relevant arguments to achieve your goals. Independent and autonomous, you enjoy working in a team in a matrix structure and communicating with various partners.

SEARCH SOLUTIONS
